SUMMARY

A highly motivated, technically proficient, and academically distinguished Cum Laude Information Technology graduate from St. Peter's College. Demonstrates extensive hands-on experience as a Lead Developer across a diverse suite of enterprise, academic, and web-based software applications. Possesses deep core competencies in full-stack web development, backend API design, database management, and cross-institutional software collaboration. A proven student leader with a track record of executive year-level governance, supplemented by formalized corporate development training and real-world freelance industry experience in SEO, automation pipelines, and operational management. Equipped with strong analytical skills, a solid theoretical foundation, and exceptional communication capabilities, seeking to transition into academia as an Academic Instructor to cultivate innovation, rigorous technical standards, and excellence among computing students.

EDUCATION

Tertiary Education

Bachelor of Science in Information Technology (BSIT) — **2022 - 2026**

St. Peter's College
Sabayle St, Iligan City, Lanao del Norte

- Academic Honor: **Graduated Cum Laude**
- Cumulative Grade Point Average (CGPA): **1.32**

Secondary Education

St. Therese Academy — **2015 - 2022**
Brgy. Tomas Cabili, Iligan City, Lanao del Norte

Our Lady of Perpetual Help Academy — **2017 - 2018**
Poblacion, Linamon, Lanao del Norte

Elementary Education

St. Therese Academy — **2009 - 2015**
Brgy. Tomas Cabili, Iligan City, Lanao del Norte

CORE TECHNICAL COMPETENCIES

Software Engineering & Full-Stack Development

- Programming Languages: Java, PHP, C++, Python, HTML, CSS, JavaScript
- Frameworks & Libraries: Laravel (RESTful API Development), React.js, React with TypeScript
- Database & Cloud Architecture: Supabase, MySQL, SQLite, Firebase, Relational Database Management Systems (RDBMS), Role-Based Authentication (RBAC) implementation

Digital Automation & Operations

- Data & Automation Workflows: YouTube Automation pipeline management, web data scraping technologies, and data extraction
- Digital Marketing Infrastructure: Advanced Search Engine Optimization (SEO) methodologies and lead qualification workflows

Systems & Network Administration

- Operating Systems: Proficient in Windows Systems Administration; basic configuration and command-line familiarity with Linux environments
- Networking Foundations: Solid understanding of core networking concepts including IP addressing, Local Area Networks (LAN), Wide Area Networks (WAN), and router/modem deployment and configuration
- IT Support & Troubleshooting: Diagnostics and deployment of basic computer hardware, software installations, system maintenance, and peripheral device configurations

UNDERGRADUATE THESIS

Title: Agrilink: Online Platform for Optimized Agricultural Product Sales and Crop Recommendation Systems

Role: Lead Developer
Thesis Adviser: Dr. Sahawi S. Malik, PhD, PCpE, STS, LPT

- Description: Conceptualized, designed, and deployed an end-to-end web platform engineered to maximize commercial efficiency for agricultural supply chains. Integrated data-driven insights and a localized crop recommendation engine to provide predictive data analysis, enabling local farmers to maximize yield and optimize marketplace positioning.

CAPSTONE & SOFTWARE DEVELOPMENT PROJECTS

Lead Developer & Technical Collaborator | 2022 – Present

- **MSU-IIT CCS Contribution Tracker (Cross-Institutional Collaboration)**
  - Co-developed a comprehensive financial and asset-tracking system customized for the Mindanao State University - Iligan Institute of Technology (MSU-IIT) College of Computer Studies. Architected and implemented Role-Based Access Control (RBAC) to secure institutional workflows, and engineered data visualization modules (interactive graphs, audit logs, and reports) to streamline fee management.
- **SPC Academic Affairs Evaluation System**
  - Designed, coded, and deployed a specialized evaluation framework for St. Peter's College to capture, process, and analyze internal data records. The system directly enhanced reporting accuracy and administrative audit efficiency across various academic departments.
- **QR Attendance System & Laravel API**
  - Developed a high-performance, secure RESTful API using the Laravel framework to power a real-time mobile/web attendance application. Implemented dynamic QR code technology to automate and streamline attendance collection and verification workflows.
- **SPCanteen Ordering System**
  - Formulated and deployed a web-based, intuitive user interface for school canteen operations aimed at modernizing order placement, decreasing customer wait times, and elevating daily transactional efficiency within the campus community.
- **Checkmate: Grocery Management Tool**
  - Developed a desktop/web inventory management application designed to track consumable stock levels, generate user purchasing alerts, and optimize household or small-business retail inventory efficiency.

PROFESSIONAL EXPERIENCE

Instructor (Part-time) | St. Peter's College

2026 – Present

- Teach Information Technology and computing-related subjects, including programming, mobile application development, analytics modeling, and platform technologies.
- Develop instructional materials, facilitate hands-on learning activities, and assess student performance.
- Guide students in developing technical skills, analytical thinking, and problem-solving abilities.

Full-Stack Developer Intern (On-the-Job Training) | Multifactors Sales

Development Department (0005 Juan C. Legaspi St., Ubaldo Laya, Iligan City)

February 2, 2026 – May 19, 2026

- Successfully completed a rigorous, certified 486-hour corporate industry internship within the core software development division.
- Actively built, tested, and maintained web applications leveraging full-stack methodologies to solve practical business and operational needs.
- Collaborated directly with technical teams under structured management pipelines to fulfill enterprise-level software requirements.

Freelance Digital Specialist | YouTube Automation & SEO

October 4, 2024 – September 14, 2025

- Formulated and managed scalable script-driven workflows for automated digital content delivery pipelines, guaranteeing continuous media output and data organization.
- Contracted as a Marketing Lead Finder, implementing search engine optimization (SEO) algorithms and specialized data scraping tools to identify, validate, and qualify high-value business-to-business (B2B) leads.

Administrative Assistant (Part-time) | HAC Construction Supply

2021 – 2025

- Provided operational, log-driven support for the daily activities of a competitive construction materials supply retailer.
- Maintained strict corporate data entries for inventory control, structured stock level updates, and resolved customer service inquiries in a fast-paced commercial environment.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Year Level Representative | St. Peter's College (S.Y. 2025 – 2026)

- Serves as a primary liaison between the computing student body and the faculty administration, championing student needs, helping organize academic seminars, and coordinating departmental IT projects.

Year Level President | St. Peter's College (S.Y. 2023 – 2024)

- Exercised executive leadership over the student cohort, organized student-led training workshops, steered team-building activities, and managed project task delegations.
